

IQ

Prove your quality with the
definitive benchmark for residential
care performance

IQ is the PCS care intelligence engine

Gain next-level portfolio insights

See how your homes are performing versus comparable providers nationwide or regionally across 200+ metrics

Target your improvements

IQ surfaces where performance is lagging so teams can prioritise actions for greatest impact

Prove your care quality

Go beyond proving compliance - IQ provides objective evidence for families, your board and CQC to show you're best in class versus competitors

"The difference IQ has made to resident care is amazing. We were well below sector average on care recording. Now we are above. IQ and the PCS team have been instrumental in helping us correct our course."

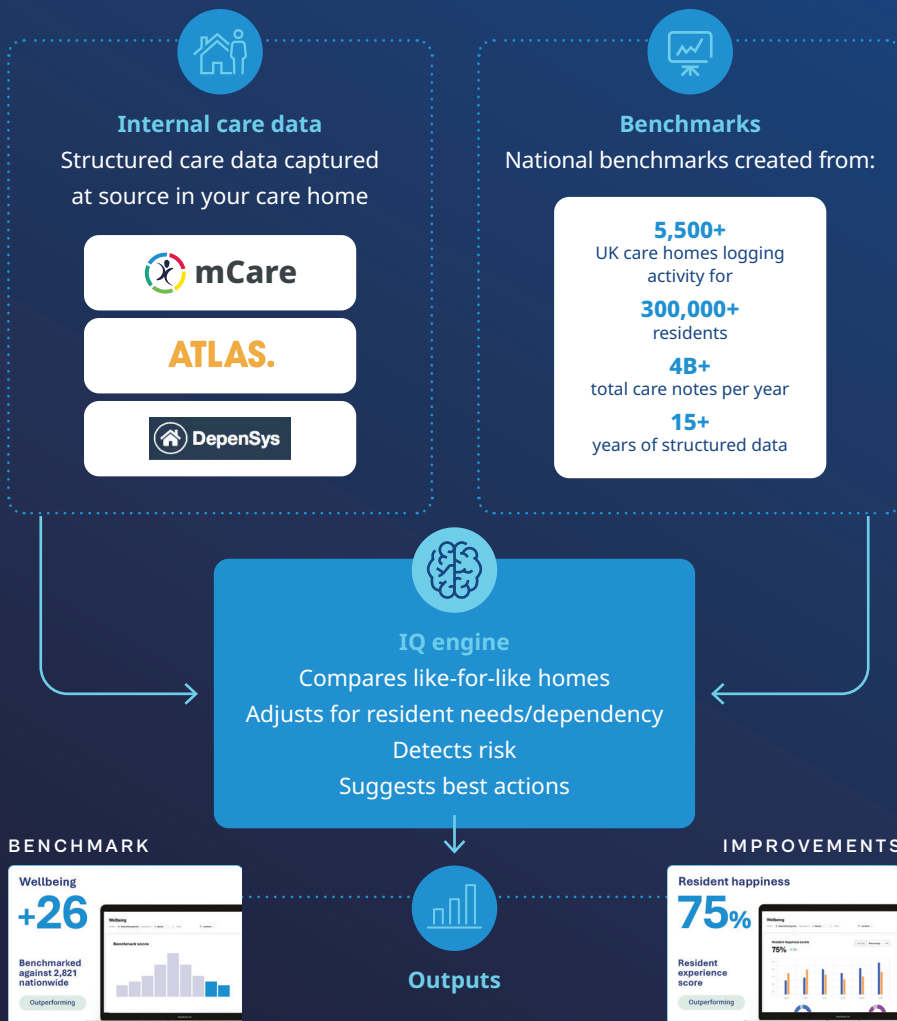

Marina Graves

*Registered Manager
at Beechy Knoll Care Home,
Pearlcare*

How it works

IQ benchmarks are built on the UK's largest structured care dataset
