

PCS Infrastructure and Sub-processors

Updated: 18 July 2024

Scope

This documentation describes the infrastructure environment and sub-processors for the PCS’s provision of the Services.

Capitalized terms used in this documentation are defined in PCS’s Master Services Agreement, Data Processing Addendum and/or other written agreement with Customer. In the event of conflict, the Data Processing Addendum definition shall prevail.

Customer agrees and acknowledges that PCS engages a limited number of its personnel via an employer of record and/or via other means of alternative contracting (individual companies or sole entrepreneurship) in the European Economic Area, United Kingdom and Australia (collectively the “Remote Personnel”). PCS shall treat all Remote Personnel in terms of security and privacy of Customer Data (including Personal Data) in the same way as its employees and employ the same effective control over their work regardless of their formal legal status. PCS considers the Remote Personnel as its personnel under its direct control and not as separate sub-processors. PCS does not publicly disclose the list of the Remote Personnel and their location to protect their privacy. Upon Customer’s request, PCS shall provide such list subject to the duty of confidentiality. If the Remote Personnel is deemed third-party sub-processors for the purpose of applicable privacy laws, Customer grants general consent for PCS to use Remote Personnel as sub-processors.
